Bipolar disorder, previously known as manic depression, is a mental disorder characterized by periods of depression and periods of abnormally elevated mood that last from days to weeks each. If the elevated mood is severe or associated with psychosis, it is called mania; if it is less severe, it is called hypomania. During mania, an individual behaves or feels abnormally energetic, happy, or ...

Bipolar disorder - Wikipedia
Through first-hand experience, offering reassurance to those who also have current or new mental health issues. However big or small, a supportive hand and ray of light is what you may need at this time. I would like to share my mantra with you for when I am unwell: 'You're NOT alone, you are LOVED, this will NOT last forever and BRIGHTER days will follow, but you need to start SELF-CARE ...
