German music website beat.de has reported that developer Izmar has created a free software emulation of the classic Akai sampler/sequencer the MPC2000XL. The vMPC2000XL Emulator is available for Windows, macOS and Linux via OSX or Windows installer. Once installed, the software creates a folder for users to place and access samples. Izmar advises users that "Files in that directory are name-mangled by the emulator just like on the real 2000XL! This means you shouldn't put the only copy ...
