Little Engines: Rough Castings, Drawings, Parts and ...

The Little Engines ALCO Northern and Hudson (4-8-4 & 4-6-4) are two of the largest 1-1/2" scale steam locomotives commercially available with some finished engines weighing as much as 2500 lbs. These engines are beautifully detailed and we recommend these for the person who wants something large, different, and challenging to build.

Paul Keiser with his Georgetown & Western Hudson running at the WB&S Spring Meet May 6, 2016.

Little Engines Hudson: MVI 5317

Alco was the second-largest steam locomotive builder in the United States (after Baldwin Locomotive Works), producing over 75,000 locomotives (though not all were steam, since, unlike Baldwin, Alco transitioned more readily to diesel). Among these were a large number of well-known locomotives. Railroads that favored Alco products included the Delaware & Hudson Railway, the New York, New Haven ...
