Bank Of Chemistry Questions And Problems

The bank of analytical chemistry questions consists of 200 questions and we expect to build this up to 500 soon. The system can handle up to 1000 questions in randomly making up one test. This feature minimizes the probability that no two students get the same paper. Different data banks exist for different subject codes. Separate data banks are used for student self-assessment and the ...

A Bank of Chemistry Questions on an On-Line Server

I've developed a bank of over 1,000 original chemistry assessment items for Moodle. Question types include multiple choice, click and drag, and calculated questions with randomly generated numbers in the prompt. (In fact, for nearly every question in which students must make a calculation, new random numbers are selected for every attempt by ...
