### Basic Scaffolding Questions Answers | Scaffolding ...

If one can also stand on the scaffolding, the rail must be at least 950mm over the working deck. If the scaffold is only going to serve as a protection against falls from the roof, the working deck must be near the roof base. If one must be able to go directly between the roof surface and the working deck, the distance can be a little larger, but not more than 40 - 50cm. If one must be able to stand on the working deck and work on the roof base, there needs to be at least 70cm difference ...
