Using Hair, Feathers, Fur, Grease, Fat, Bones, Horns, and ...

A few days ago, I posted about some of the ethical issues endemic to working with elements of an animal's physical body (e.g. fur, feathers, and bones). Shortly after that post I found a related article on Sarah Lawless' blog. For those who don't know, Sarah Lawless is "The Witch of Forest Grove". It is...

Fur, Feather, and Bone: More Ethics - Wandering Woman ...

Shaykhul-Islam Ibn Taymiyyah said: "As for the bones, horns, and nails of a dead animal and whatever is of the same nature, such as its hooves and the like, as well as its hair, feathers, and fur, the scholars held three opinions regarding the ritual purity of these two categories. First: that they are all ritually impure, which is the famous opinion of Ash-Shaafi'i as well as one of the opinions reported from Ahmad. Second: that the bones and their like are ritually impure, while the ...

Feather & Bone Butcher Deli Produce

The eagles do eat the bones, especially of the fish and any small mammals (rare in the diet of Channel Island bald eagles). They may also eat the smaller bones of birds. They are able to digest the bones and will cough up a pellet with the feathers or fur. Owls are unable to digest the bones, so their pellets are usually the ones in which you can see most of the skeleton of their prey.
