[Business Statistics A First Course](#)

Business Statistics A First Course

Business Statistics: A First Course, 3rd Edition, by Sharpe, De Veaux, and Velleman, narrows the gap between theory and practice — relevant statistical methods empower business students to make effective, data-informed decisions. With their unique blend of teaching, consulting, and entrepreneurial experiences, this dynamic author team brings a modern edge to teaching statistics to business students. Focusing on statistics in the context of real business issues — with an ...

Business Statistics - A First Course, 6th Edition: Levine ...

This course will introduce you to business statistics, or the application of statistics in the workplace. Statistics is how we gather, analyze, and interpret data. If you have taken a statistics course in the past, you may find some of the topics in this course familiar. You can apply statistics to any number of fields, from anthropology to hedge fund management, because many of us interpret data best when it is presented in an organized fashion.
