## [Color Atlas Of Life Before](#)

### **Color Atlas Of Life Before**

This color atlas is a beautiful book containing fine color photographs, photomicrographs, and radiographic reproductions of normal human development. They serve to provide the reader interested in embryology with a series of striking visual images that surpass previous efforts to illustrate areas in this field that consisted primarily of line drawings.

### **Color Atlas of Life Before Birth: Normal Fetal Development ...**

A unique, profusely illustrated guide to the development of the normal fetus, from conception to birth, this book utilizes 836 illustrations, 787 in color, to graphically depict each stage of fetal development. It incorporates imaging illustrations, including CT and MRI scans, and extensive coverage of the lymphatic system. 240 pp. Pub: 10/96.

Get this from a library! A colour atlas of life before birth ; normal fetal development.. [Marjorie A England]

### **A colour atlas of life before birth : normal fetal ...**

The atlas is very cohesive and contains hundreds of color illustrations of extremely high quality. I am quite surprised at the low cost of the book (\$39.95) when the number and quality of illustrations are taken into account.
