### **Colors of the World: The Geography of Color - Jean ...**

Jean Philippe and Dominique Lenclos have a different approach. They are fascinated by questions of how a building's colors reflect its surroundings. In pursuit of these questions, they created a fascinating analytical model called the "Geography of Color". It is a unique system and the book's six hundred beautifully rendered photographs are harnessed to elucidate their approach. "Colors of the World" is an intoxicating book which will be of great interest to both students of vernacular ...
